

PROCUREMENT INFORMATION

The Association is currently renewing its Reactive & Planned Maintenance Framework.

The Framework enables MHA to bring together service requirements to allow improved contract management opportunities, and the ability to build a long term working relationship with each contractor and supplier for the duration of the agreement.

The tender and evaluation process for this was carried out in accordance with Public Contracts (Scotland) Regulations 2012 and conducted by MHA staff along with external consultants Gold Consultancy; the Framework consists of 11 lots for contractors with suppliers Lots still to be determined, and will become effective from April 2022 and will run for a 5-year period from 2022 – 2027.
