THE SCOTTISH SOCIAL HOUSING CHARTER

The Scottish Social Housing Charter was introduced under the Housing (Scotland) Act 2010 and became effective from 1 April 2012. The aim of the Charter is to improve the quality and value of the services that Housing Associations provide, and supports the Scottish Government's long-term aim of creating a safer and stronger Scotland.

The Charter contains 15 outcomes, 14 of which are applicable to MHA which relate to the service provision which tenants, owners and other customers should expect from their landlord. The following table provides a summary of Milnbank Housing Association's performance on service delivery during the period 1 April 2013 to 31 March 2014. A comparison is made against the Scottish Average using the Scottish Housing Regulation (SHR) Landlord Report and the Scottish Housing Best Value Network (SHBVN).

Outcome 1: Equalities – Every tenant and other customer have their individual needs recognised, are treated fairly and with respect, and receive fair access to housing and housing services.

Outcome 2: Communication - Tenants and other customers find it easy to communicate with their landlord and get the information they need about their landlord, how and why it makes decisions and the services it provides.

Outcome 3: Participation – Tenants and other customers find it easy to participate in and influence their landlord's decisions at a level they feel comfortable with.

Tenants’ homes, as a minimum, meet the SHQS by April 2015 and continue to meet it thereafter, and when they are allocated, are always clean, tidy and in a good state of repair.

Outcome 5: Repairs, Maintenance & Improvements –

Tenants’ homes are well maintained, with repairs and improvements carried out when required, and tenants are given reasonable choices about when work is done.
